Tender TN-7731: Supply of laboratory and field instruments (fictional sample)

Issued by the Ridgeback Catchment Authority, a fictional public body.

Tenders close on 12 January 2027. All amounts are in South African rand.

Tenderers must price each line separately and keep to the order of the table below.

Notes for tenderers

Read all parts of this tender before preparing an offer.

Site visits can be arranged through the procurement office on written request.

Goods are delivered to the authority store at Ridgeback and signed for on arrival.

Each package must carry a label showing the line reference and the tender number.

Instruments must be supplied calibrated, with a certificate where one applies.

Operating manuals in English must accompany each instrument.

Substitutes are accepted only when stated clearly and priced apart from the main offer.

The authority may ask for a working sample before it makes an award.

Questions about this tender are answered in writing to every tenderer together.

Nothing in this tender commits the authority to buy any item shown.

Conditions of tender

Offers stay open for ninety days after the closing date.

Prices are firm until delivery and are quoted without VAT.

A tenderer must say plainly what its price leaves out.

Delivery is expected within six weeks of a written order.

The authority may place its order with more than one tenderer.

Late offers are returned without being read.

Payment follows thirty days after a correct invoice is received.

The authority does not have to accept the lowest offer or any offer.

This document and everything in it is invented for software testing only.

No real company, product or price is meant by any figure shown here.
